High Performance Waterbornes of Distinction for
Timber, Cork and Parquetry

PRODUCT DATA SHEET

SQUEAKY CLEAN

DESCRIPTION:

Squeaky Clean is a gentle acting cleaner using biodegradable natural plant extracts as the active ingredient, that with regular use will assist in prolonging the life of a Polyurethane coated floor by assisting in the removal of surface contaminants and abrasive particles.

FEATURES:

- Simple to use chamber pack to measure dosage
- Waterbased with pleasant citrus fragrance
- Fast acting on grease, grime and oils.
- Damp mop apply, which also aids in grit particle removal.
- Neat Squeaky Clean will readily remove black heel marks
- Mild on the skin

DIRECTIONS FOR USE:

- Floor surface should always have been dust mopped prior to Squeaky Clean use so as to remove loose particles of dirt, grit, etc from the floor.
- Add 1 chamber measure (25 ml) to a mop bucket of luke warm water. Never use hot water on a Polyurethane coated floor.
- Immerse mop head and squeeze to damp only.
- Damp mop floor. Damp mop means no puddles left on floor following mopping.
- Allow to dry for typically 15 minutes

- To remove black heel marks use Squeaky Clean direct from the bottle onto a rag and rub gently. The mark will easily be removed.

Note:

- **High pedestrian traffic areas should be dust mopped daily and damp mopped with Squeaky Clean**
- **For low traffic areas, a weekly treatment should be satisfactory.**
